

Read Me

Clicking on the EViews **Help** menu and selecting **EViews Help Topics** displays help system links offering quick access to frequently used portions of the system.

Selecting the **Help/Quick Help Reference** entry in the main EViews menu offers additional help system shortcuts. For example, a description of “What's New in EViews 10” may be found in the EViews **Help** menu under **Quick Help Reference**.

For the latest information on EViews 10, including possible software updates, please visit our web site at:

<http://www.eviews.com>.

We also recommend that you visit the EViews Forum:

<http://forums.eviews.com>.

where you can find answers to common questions about installing, using, and getting the most out of EViews. The forum is an ideal place to ask interact with and learn from other EViews users.
