## First Term Exam of English

### I/ Read the following passage and answer the questions:

Children are considered as the future of nation. So, they should be protected a lot from any hazardous. They should be given proper care and love, time to live their childhood, getting education, and other things according to their rights. They should carry books in their hands and not bricks. They should play with toys and other indoor or outdoor games like footballs, cricket, etc. They should go to the school and not to the mines or industries.

Various NGOs are working in this field to ensure that all the Indian children are getting their basic rights guaranteed by the United Nations Charter of Child Rights, 1992. Basic rights are: right to survival, right to protection, right to development, and right to participation. Some of the industries using child labour are textiles, hand-knotted carpets, silk, construction, glass, footwear, brassware, production, gemstone polishing, fireworks, etc. Child labour is generally preferred by the industrialist and businessmen as they get efficient work at low cost. 30th of April is celebrated as Anti-Child Labour Day all over India in order to spread awareness among people against child labour.

#### 1- Give a title to this short passage:

***Childe labour (2pnts)***
