

-ATTENTION ! CECI , N' EST QU 'UN CORRIGÉ TYPE....

**- L 'APPRECIATION DE L 'ENSEIGNANT PEUT VARIER AU NIVEAU DES RÉPONSES D' EXPRESSION LIBRE .
ÉVIDEMMENT LE CAS NE S 'APPLIQUE PAS AU NVEAU DES EXERCISES 1 ET 2**

TCE II exam

Duration: 90 minutes

Exercise-1-5 POINTS

0.5 POUR CHAQUE BONNE RÉPONSE

-Fill the dotted spaces with the relevant words .Here below, a list of 20 words; half of them are not correct.

"Remplissez les espaces en pointillés avec le mot pertinent .Voici ci-dessous, une liste de 20 mots dont la moitié n'est pas à considérer "

The list:

Endosperm---caryopsis---perianth---spots---chlorophyll---seed---mesocarp---coat---seedling---exocarp---
fleshy---capsules---pears---carpel---sunlight---endocarp---inflorescence---ovule---ripen---life cycle

Not only are fruits essential in Angiosperms **life cycle**. They are also utilized as significant food resources. Many **fleshy** fruits like **pears** and apples are composed of three layers where **mesocarp** is often soft and juicy .Dry fruits like **capsules** and **caryopsis** are divided into two main groups indehiscent and dehiscent. Under appropriate environmental conditions the **seed** germinates and the structure which emerges from it enables the development of a small plant usually called **seedling**.Soon after, the tissues of this plant emerge from underground and are exposed to **sunlight**. The plant develops mainly in its leaves **chlorophyll** and begins to photosynthesize.

Exercise-2---5 POINTS

1 POUR CHAQUE BONNE RÉPONSE

LES BONNES RÉPONSES SONT TOUTES TRUE

-Tell us for each statement below, if it is true or false?

"Dites-nous, pour chaque énoncé ci-dessous, s'il est vrai ou faux? "

Cochez la bonne réponse

1-The main food of Penguins consists of fish and krill.....True False

2-The Penguins live only in the southern pole..... True False

3-The Penguin female lays only one egg True False

4-The southern pole is also called Antarctica..... True False

5-The Penguins are birds..... True False

Exercise-3 5 POINTS

Read the short text and reply to the questions below.

In order for animals to survive, they need to be able to adapt. In perfect world animals would not need to adapt. However, with constant changes to the environment, food chain and climate, animals must adapt or face extinction. An adaptation is a trait that makes an animal suited to its environment .It can be a behavioral or a structural trait. For example, moving in large groups is a behavioral adaptation; it helps protect the members of the group. The thick fur coat of an arctic fox is a structural adaptation. It helps protect it against the cold weather.

A chameleon can change its color according to its surroundings. Not only does it help protect the chameleon, it also helps it survive in another way. Because it blends in so well with its surroundings, insects are less likely to see or notice it. The penguins live in a place where it is extremely cold and the water temperatures never rise above freezing .They are flightless, but they are wonderful swimmers. Penguins make their nests side by side and after the chicks are born, they all huddle together to stay warm.

-Questions:

1-Put a general title to the short text. 1 POINTS

1 POUR UN TITRE COURT ET COHÉRENT (note complète)

0.5 POUR UN TITRE COHÉRENT MAIS ASSEZ LONG (plus de 5 mots)

0.25 POUR UN TITRE COHÉRENT AVEC UNE DES DEUX IDEES PRINCIPALES DU TEXTE (exemples: adaptation, animals, behaviour)

0.25 -les titres moins signifiants :

Quand on est moins précis par exemple : le mot animal est remplacé par pingouins

- les meilleurs propositions :

-Animal adaptations

-Animals and adaptations

-Animal behaviours

-Behavioral adaptation of animals

2-In the text, throughout the underlined words, the author explains a very known type of adaptation.

Give in just one word its name by filling the relevant space in the table below. . 2 POINTS

0.5 POUR UN MOT COHÉRENT MAIS SANS FAUTE D ORTHOGRAPHE (exemples: Camouflage, Bear)

0.25 POUR UN MOT COHÉRENT MAIS MAL ORTHOGRAPHIÉ (exemples: Camoflage, Beer)

"Dans le texte, à travers les mots soulignés, l'auteur explique un type très connu d'adaptation. Donnez le terme adéquat en remplissant l'espace correspondant dans le tableau ci-dessous. Donnez d'autres exemples au niveau des autres cases"

Example of behavioral or structural adaptation	Animal example
Camouflage	Chameleon
Hibernation	Bear or bats
Mimicry	snake

AUTRES RÉPONSES POSSIBLES

Migration	Zebra or canada geese
Protective Coloration	Polar bear or hare
NON POUR LES MOTS behavioral or structural adaptation-- CELA EST DEJA DONNE DANS LE TABLEAU	

3-Why Penguins live in large communities? **2 POINTS**

0.5- 1 UNIQUEMENT POUR LA QUALITÉ D' EXPRESSION

0.5 POUR CHAQUE ARGUMENT VALABLE OÙ DES MOTS CLEFS COMME : PROTECTION ,DEFENSE ,WARM...DOIVENT Y FIGURER

The complete explanation is not in the text. Remember what we have explained in class !

"Pourquoi les pingouins vivent t-ils en grandes communautés ? L'explication complète n'est pas dans le texte. Rappelez-vous, ce que nous avons expliqué en classe à travers une projection vidéo."

Penguins live in large communities to:

-keep their temperatures stable :staying warm in the southern pole is one of the main challenges....

-protect themselves from many predators like walrus or sea lion.....

Exercise-4. 5 POINTS

0.5 POUR CHAQUE MOT JUSTE

0.25 POUR UN MOT MAL ORTHOGRAPHIÉ MAIS PHONETIQUEMENT JUSTE

-Caption the illustrations below.

"Légendez les illustrations ci-dessous."
